

Coffee Bean Grading Sieves

Designed to be used with a sieve shaker, or by hand

NEW!
Available in
Stainless Steel

These sieves are specially designed for the coffee industry and used for grading coffee beans. They are manufactured with brass or stainless steel frames of 8" or 200 mm and fitted with round hole, stainless steel perforated plate.

A complete range is available in standard measurements. Other specifications and designations are also available.

12 INCH SQUARE WOODEN HAND SCREENS

Coffee Laboratory HAND SCREENS are quality constructed, using premium kiln dried wood. The finished wooden frames are designed to stack on top of each other.

Round or oblong (Peaberry) hole apertures are custom punched with .004" tolerances, in to premium 20 gauge sheet metal plate, using computer numerical control (CNC) machine tools, eliminating partial holes.
