

POWERVER NORTH AMERICAN GROUND GUARD® —
FOR USE WITH SYSTEMS IN A NETWORKED
ENVIRONMENT

NORTH AMERICAN GROUND GUARD® POWER
CONDITIONERS PROVIDE NETWORKED SYSTEMS WITH
BENEFITS BEYOND THOSE OF TRADITIONAL POWER
CONDITIONING PRODUCTS. PATENTED POWERVER FILTER
ELEMENTS IN THE SAFETY GROUND CIRCUIT PREVENT THE
FORMATION OF “GROUND LOOPS.”

Superior power conditioning combined with our new “ground conditioning” eliminates the need for
both dedicated electrical circuits and isolated ground wiring.

Models from 78 VA to 2.4 kVA to protect every application

Patented Ground Guard® conditioning circuitry eliminates ground loops

Red LED flashes if AC outlet is missing its input safety ground

UL and cUL listed

All models covered by POWERVER's five-year warranty on parts and labor

low-impedance transformer,
bi-directional noise filter/surge
diverter, and ground conditioning
make dedicated/isolated
wiring obsolete

NORTH AMERICAN GROUND GUARD®

patented
ground guard®
circuitry

MODELS

	Input Voltage (VAC)	Output Voltage (VAC)	Load Power (kVA)	Size (in.) (H x W x D)	Shipping Weight (lbs.)
